[3] MISCELLANEOUS:		See page 6 for a list of these	

CK Systems Pegasus Opera Product Library
End User Price List

[1] VERTICAL APPLICATIONS:

1.1 Personnel Recruitment Front & Back Office Modules: *CK Recruit*

Front Office Module: Allows end user to record personal permanent and temporary candidate information, references, work experience and qualifications. End user also records job vacancies/opportunities and a routine is run to match individuals to vacancies taking into account the required qualifications, geographic area, key words, etc. Bookings are created along with Terms & Conditions and Timesheets are created to be sent to the individual for completion for input into the Back Office module.

Back Office Module: Extensive links to Pegasus Opera to allow timesheets to be posted (with cost & chargeout rates) into the Opera Job Costing module. The timesheet hours are updated into the Opera Payroll module and draft invoices are automatically posted into the Opera SOP/Invoicing module. Cost and chargeout rates can be maintained by individual. Demo available on request.

Software Price: **Back Office & Front both priced as Opera II module price list**
AMC Price: **One user: £300 +VAT per annum** **More Than One user: £550 +VAT p.a.**

1.2 Vehicle Hire Module: *CK Hire*

Module allowing the end user to hold vehicle databases and hire charge tables. Hire Agreement and booking in and out routines allow the sales invoice to be raised and posted directly into the Opera Sales Ledger. Demo available on request.

Software Price: **Priced as Opera II module price list**
AMC Price: **One user: £300 +VAT per annum** **More Than One user: £550 +VAT p.a.**

1.3 Garage System Module: *CK Garage*

Module allowing the end user to book vehicles into garage workshop, enter work to be done and print job sheet. Stock can be booked to the job, full vehicle job history is kept and invoices raised directly from the job sheet into the Opera Sales Ledger. Demo available on request.

Software Price: **Priced as Opera II module price list**
AMC Price: **One user: £300 +VAT per annum** **More Than One user: £550 +VAT p.a.**

1.4 Sub-Contractor Ledger: *CK Subcontract*

Built within the Opera framework and shows as a separate ledger in Opera. Links with the Nominal Ledger, Cash Book, POP and Costing modules so no need to re-key sub-contractor invoices into the Costing. Holds subcontractor registration and payment information and collates tax deductions for onward submission to HMRC. Full reporting available for monthly returns. Demo available on request.

Software Price: **Priced as Opera II module price list**
AMC Price: **One user: £300 +VAT per annum** **More Than One user: £550 +VAT p.a.**

1.5 Wordlink:

A document creation utility from Opera with real time data links to Microsoft Word and Microsoft Outlook. Wordlink allows the user to perform one-off documents or full mail and email merges from the Opera Sales Ledger, Purchase Ledger, Payroll and Personnel modules. Demo available on request.

Software Price: **£ 595 +VAT**
AMC Price: **£195 +VAT per annum**

1.6 Production Route Cards:

Route Card control system for manufacturing industries. Allows users to produce route cards directly from Sales Order input and allows user to hold a database of pre-defined manufacturing instructions. Demo available on request.

Software Price: **£ 595 +VAT**
AMC Price: **£195 +VAT per annum**

CK Systems Pegasus Opera Product Library
End User Price List

[2] USEFUL APPLICATIONS:

2.1 Recode (includes sales & supply codes)

Allows user to change the unique codes for accounts, stock & job records and updates all historic transactional occurrences with the new code. Available for sales, purchase, nominal, stock & costing. Also allows user to merge accounts if an existing code is entered. This utility also caters for *Batch Recoding* and can import a list of codes to Re-code from a CSV file. Can also be setup to include 3rd party bespoke fields in Recoding process. Also allows for recoding of sales codes & supply codes. This utility is also part of the Partner Toolkit (see 2.6 below)

Software Price: £190 +VAT per ledger **AMC Price: £50+VAT pa ea**

Note: Discounts are available for multiple purchases of this utility for the same site.

2.2 Delete

Allows user to delete records (that have a zero balance) even if related transactions exist elsewhere in the Opera data. Options are available to remove or keep these related transactions (in Sales History, SOP, POP, BOM). This utility is available for Sales, Purchase, Nominal and Stock. This utility is also part of the Partner Toolkit (see 2.6 below)

Software Price: £190 +VAT per ledger **AMC Price: £50+VAT pa ea**

Note: Discounts are available for multiple purchases of this utility for the same site.

2.3 Copy Company Utility

Allows the end user to copy a whole Opera company dataset into a new company on the same system very easily and conveniently. This utility is also part of the Partner Toolkit (see 2.6 below)

Software Price: £395 +VAT per ledger **AMC Price: £150 +VAT**

2.4 Stock Profile Changer

A utility to allow Stock Profiles to be changed. This includes changing Quantity and Sell Decimal Places, convert from Decimal to Factor, Factor to Decimal and convert from FIFO to non-FIFO. A validation check can be run first highlighting any problems with the requested changes. This utility is also part of the Partner Toolkit (see 2.6 below)

Software Price: £395 +VAT **AMC Price: £150 +VAT**

2.5 Opera Data Fixing Routines – *"Opera2cheCK"*

Opera2cheCK is an easy to use database recovery tool which can be run standalone or within Opera. Fixes most common Database, Memo and Index corruptions seamlessly with no user interaction required. This utility is also part of the Partner Toolkit (see 2.6 below)

Software Price: £ 495 +VAT **AMC Price: £150 +VAT**

2.6 Partner Toolkit

A selection of our useful dealer tools for manipulating and fixing Pegasus Opera data designed for dealers to provide a data maintenance service to their end users. The Dealer Toolkit includes:

- Opera2cheCK
- Delete Suite (all)
- Recode Suite (all)
- Copy Company Utility
- Stock Profile Changer
- Turn Cash Book On/Off Utility

Software Price: £ *FOC* **AMC Price: £495+VAT**

2.7 Sage 50 Data Conversion Routines – *"CK Sagelink"*

A data conversion routine for Pegasus Dealers only to convert all versions of Sage50 data into Opera. Data converted includes:

- Nominal Ledger chart of accounts and opening balances
- Sales Ledger headers and transactions (outstanding and full history)
- Purchase Ledger headers and transactions (outstanding and full history)
- Stock Control headers and transactions (opening balances and full history)

Software Price: £ 395 +VAT per site **AMC Price: n/a**

Note: If preferred CK Systems offer the service of converting the data for the incumbent Pegasus Partner for the above price per dataset.

CK Systems Pegasus Opera Product Library
End User Price List

2.8 Postcode Lookup Routines – *"CK Postcode"*

A fully integrated postcode lookup feature that allows the end user to enter the postcode to automatically populate the full address details in Opera. CK Postcode integrates with Sales Ledger, Purchase Ledger, PIR, POP, WOP, Payroll, Personnel and SPM. Additional features include "Find nearest", advanced searches and a data tidy routine.

The end user needs to take out a subscription (or purchase credits) with the on-line postcode look up provider "Simply Postcode" for access to current postcode data.

Software Price: £ 400 +VAT **AMC Price: £150 +VAT per annum**

2.9 Quick Sales Quote Entry – *"CK Quick Quote"*

A quick and easy sales quote entry screen designed to speed up the standard Opera sales order entry routine, ideal for telesales and organisations processing a large number of sales orders. The customer, customer reference and stock items are all entered on a single screen.

Software Price: £ 495 +VAT **AMC Price: £150 +VAT per annum**

2.10 Quick Sales Order Entry – *"CK Quick Order"*

A quick and easy sales order entry screen designed to speed up the standard Opera sales order entry routine, ideal for telesales and organisations processing a large number of sales orders. The customer, customer reference and stock items are all entered on a single screen.

Software Price: £ 495 +VAT **AMC Price: £150 +VAT per annum**

2.11 Simple Stock View Screen

An alternative, additional stock view screen that only displays transactions that involve a movement in stock (allocations and de-allocations have been removed) along with a running stock balance.

Software Price: £390 +VAT **AMC Price: £100 +VAT per annum**

2.12 Stocktake Utility

Stocktake utility which allows you to freeze stock figures per warehouse and allows the user to enter new quantities after stock take. This will then post stock adjustments based on stocktake quantities.

Software Price: £395 +VAT **AMC Price: £150 +VAT per annum**

2.13 Alternative Debtors & Creditors Reports

Differently formatted Debtors & Creditors Reports available as summary & detailed. The detailed version having transactions aged (unlike Opera standard report) and reading from left to right. Also displays 5 months of aged analysis.

Software Price: £195 +VAT each **AMC Price: £50 +VAT each per annum**

2.14 Payroll Batch Input Screen

An additional screen designed to speed up payroll input. A browse screen has a column of employees listed down left hand side and the Pay Profiles across the top. Hours or units are entered in the grid and then updated (print is optional) into the Payment/Deduction screen. Ideal for users entering hours from spreadsheets or clock cards.

Software Price: £395 +VAT **AMC Price: £150 +VAT per annum**

2.15 Messaging Services – *CK Herald*

This application allows you to schedule messages to be sent to Opera users via Desktop Alerts, Emails or a Messagebox, it also allows you to schedule Opera to shutdown and will logout users automatically. Users are informed that they can log back into Opera after the forced shutdown has finished. Ideal for period ends, maintenance or upgrades and is especially useful at larger sites or sites with remote branches.

CK Herald runs as a service on the fileserver and "CKSWatcher" runs on the client workstations which allows end users to receive messages created in Opera even when they are not logged into Opera. CK Herald also includes "CK Forced Shutdown" (see 2.16 below).

Software Price: £495 +VAT **AMC Price: £150 +VAT per annum**

CK Systems Pegasus Opera Product Library
End User Price List

2.16 Close Opera II Automatically – *CK Forced Shutdown*

Allows the ADMIN user automatically to log all other users out of Opera II using a timed or manual automatic system shutdown. Users receive regular automatic messages warning of impending shutdown, the time, frequency and duration of these messages are defined by the user and other users are prevented from logging back into Opera and they are informed of an approximate time when the system will be available. Easy to use and accessed directly from Monitor Users menu with ADMIN logon

Software Price: £395 +VAT **AMC Price: £95 +VAT per annum**

2.17 Enhanced User Profiles

The standard Opera User Profile screen has been enhanced to include the following:

- Password Expiry with expiry reminders (with system defined days)
- Lockout users after a system-defined number of unsuccessful attempts
- Logout user if idle for system-defined number of minutes
- Force password to contain Alpha & Numeric's, upper, lower or mixed case, minimum password length, stop repeating characters and password must be different to last x (user defined) passwords when changing
- Template Users
- Departments can be setup and assigned to each user
- Email addresses can be entered against users
- Template Users - users can be created as "template users" and this can be attached to user accounts. This means that users in the same department (who require the same menu access) have the relevant template attached and the user administrator only needs to change the menu access for the template user to update all the users with this template automatically.
- All sensitive data is encrypted so cannot be modified outside of Opera using Visual FoxPro

Software Price: £295 +VAT **AMC Price: £75 +VAT per annum**

Software Price: £295 +VAT **AMC Price: £75 +VAT**

SALES ORDER PROCESSING

Update Price List Descriptions

When the Stock Description is changed in Stock, this utility updates the amended stock descriptions in SOP Special Price Lists

Software Price: £150 +VAT **AMC Price: £50 +VAT**

Edit Stock Cost

Allows the Cost Price to be changed when adding/editing an SOP detail line. Standard Opera only displays this cost price.

Software Price: £150 +VAT **AMC Price: £50 +VAT**

CK Systems Pegasus Opera Product Library
End User Price List

Stock Cost Warning
User is warned if the Sell Price entered is less than Cost Price

Software Price: £150 +VAT **AMC Price: £50 +VAT**

Print Delivery Labels
Allows the user to print Delivery Labels when producing an Invoice in SOP/Invoicing

Software Price: £150 +VAT **AMC Price: £50 +VAT**

STOCK CONTROL

Batch Stock Issues
A browse screen to allow the user to enter and update stock issues as a batch rather than posting individual transactions as with standard Opera. This feature vastly decreases the amount of data input time by the end user.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Batch Stock Transfers
A browse screen to allow the user to enter and update stock transfers between warehouses as a batch rather than posting individual transactions as with standard Opera. This feature vastly decreases the amount of data input time by the end user.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Archive Stock
A utility to allow users to transfer all stock transactions into another nominated Opera company dataset (appends to existing data if data already exists) and clear down stock transactions in the live company. Ideal for companies with large stock transactions.

Software Price: £395 +VAT per ledger **AMC Price: £150 +VAT**

Zeroise Stock
A utility to allow user to zeroise the stock ledger in one option by posting an adjustment for each stock code. A very useful utility where the end user wishes to post a quantity following a stocktake.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Customer Stock References
Allows additional stock references to be stored per customer for each stock item.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

RRP Price
An extra numeric field in stock header to hold the RRP. Reports can then be raised using this field.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Foreign Currency Cost
An extra numeric field in stock header to hold a foreign currency cost/sell price. Reports can then be raised using this field.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Show Main Warehouse Stock
Shows main warehouse stock quantity on stock processing General page, List page and Search form.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

CK Systems Pegasus Opera Product Library
End User Price List

Show Price Lists
This shows all the price lists breaks that the current stock item is part of from the stock header screen with prices/quantity.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Image Hyperlinks
An extra field on the stock header holding the link directly to an image of the item.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

Filter Stock View by Warehouse
Opera defaults to show all warehouses on the View screen whether a balance is there or not. This utility shows only the warehouse with a stock balance that is not zero.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

GRN/PO Receipt Labels
An option to print stock labels directly from stock receipts/GRN transactions. The number of labels printed is the quantity of the receipt/GRN for each product.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

PURCHASE ORDER PROCESSING

Batch PO Print

A utility to allow PO's to be printed in one batch after they have all been input rather than individually as they are created.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

GRN/PO Receipt Labels

An option to print stock labels directly from stock receipts/GRN transactions. The number of labels printed is the quantity of the receipt/GRN for each product.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

NONINAL LEDGER

Cash Book Turn On/Off

A utility that allows the end user to turn off the Cash Book link to the Nominal Ledger thereby allowing the end user to post nominal journals to the bank accounts. This utility is also part of the Dealer Toolkit (see 2.6)

Next Year’s Nominal Calendar

Allows the end user to enter next year’s calendar and copy to current year at Year End.

Software Price: £195 +VAT **AMC Price: £50 +VAT**

****

CK Systems Pegasus Opera Product Library
End User Price List

PRICE LIST NOTES:

[1] Conditions of Sale:
All prices are subject to change without prior notification and are stated in this price list before VAT which is chargeable at the current rate. Charity, Educational and Cash With Order discounts are not available from CK Systems. Our standard Terms & Conditions included with this price list apply in addition to these notes.

[2] Opera Toolkit Module:
For all Opera systems the Toolkit module must be present on the Opera activation for any of these modules/utilities to work.

[3] Annual Maintenance Contracts:
The AMC is mandatory at the point of purchase.

[4] Latest Version Upgrades:
Where an AMC has lapsed, a latest version upgrade charge will be made of £50+VAT (dealer price) plus the current AMC. If the AMC has lapsed within the previous 6 months an option exists to backdate the AMC renewal to the date at which it lapsed.

[5]Dealer Transfers:
Where an end user moves from one Pegasus Partner to another there is no administration charge for doing so but the above still applies with regard to lapsed AMC's.

[6] Dealer Telephone Support:
Dealer telephone support is charged to the dealer on the vertical application modules at 15% of the above **end user** software prices. If this is not taken out then the dealer will be charged for all such time (and any related time and expenses in resolving the issue) at our current hourly rates.

[7] Additional Users:
For sites that require individual additional users for the vertical applications please add £50+VAT per extra user.

[8] Multiple Sites:
A discount of 15% is available for the vertical applications only.

[9] Opera Upgrades:
End users upgrading from Opera I to Opera II or 3 may take a further 20%on the software prices stated above as long as a current AMC is in place. Where the AMC has lapsed this discount will not be applicable.

[10] Product Amendments & Bespoke:
Any required enhancements or software changes to the above standard products will be quoted for separately. Prices for any other bespoke modules, features or utilities we have written as in previous catalogues will be quoted for on an individual client basis.

[11] On-site Training
Training is available at discounted dealer rates (POA) plus mileage & expenses.

[12] Cancelled Orders & Returns:
Returns will only be accepted in exceptional circumstances and a handling charge of 20% may be charged on returned software.
